Nature and Extent of involvement of Faculty and students in academic affairs/improvements	Faculty of Architecture (FoA) is a part of Sarvajanik College of Engineering and Technology (SCET) managed by SES (Sarvajanik Education Trust) established in 1912 today the society imparts quality education in multiple disciplines. SCET was established in 1995 as one of the pioneers Self-financed educational institute imparting technical education including Architecture and nine Engineering branches. The mission of the institute is “To form intellectually competent, professionally skilled, spiritually evolved, morally upright, socially responsive, culturally tolerant citizens through holistic “Sarvajanik” Technical Education for creation of progressive civilization” The academic programme of FoA offered 5 year undergraduate programme conferring the degree of Bachelor of Architecture (B.ARCH) having intake of 80 students. The programme is recognized by the All India Council of Technical Education / Council of Architecture (CoA) and affiliated to the Veer Narmad South Gujarat University, Surat, Gujarat, India.

Nature and Extent of Involvement of Faculty and students in academic affairs/improvements	INNOVATIVE TEACHING METHODOLOGY: The Faculty of Architecture possesses valuable teaching resources in the form of core and visiting faculties. Around 65 eminent architects and professionals from design and allied fields are associated to the FoA for teaching. The team is a mix of experience and enthusiasm imparting valuable knowledge to the students for theories and practices in the field of Architecture Design, Planning and various other subjects. RATIONALE OF COURSE: The mission statement itself focuses on “Moulding young creative minds into sensitive professionals who are competent to negotiate social complexities, environmental pressures and changing technology”. The pedagogue's work also consists of supporting the student's in their mental and social development. University education should balance teaching students the skills and intricacies of their field while enabling them to discover their authenticity and place in the world (Architecture Pedagogy, FOA, SCET). The mission suggests molding young and creative mind into sensitive professionals is the base formula for the formulation of curriculum. The academic curriculum at FoA, SCET stresses at developing young minds in the field of architecture and planning in a manner, so that, they can negotiate between the cultural, social and environmental complexities related to built environment. COURSE CURRICULUM OVERVIEW: 1) Undergraduate The Five years full time new academic programme as suggested by COA constitutes of Four years (8 semesters) of classroom/studio education and one year (2 semesters) of practical experience in the form of professional training. Bachelor in Architecture A student centric choice based approach is the foundation of the formulation of the course alongwith liberal studies education which will become the distinctive attribute that FoA, IDPT, SCET offers its students. Holistic personality development as well as an informed professional in the field of design , sensitive and sensible to issues of sustainability, is ensured through rendering an application and outcome based learning throughout the five-year programme. The module based delivery package is formulated to enable teachers to impart education that ensures synthesis of information and application of knowledge. In a world flooded with data and information the graduate of FoA, IDPT, SCET will be able to synthesise information and convert it to knowledge, through a process rich in critical thinking and appropriate expression. In keeping with the benevolent and progressive Sarvajanic tradition of Inclusive education, diversity of students, inculcation of respect, civic participation and community inclusivity, shall be seeded in the young minds that meet here. Guidelines given by Council of Architecture and

	AICTE have been followed to form the broader framework of the syllabus. The distribution of courses ensures progressive development of student potential. Humanities, Liberal studies and life skills, a plethora of professional and open electives promote trans-disciplinary learning. An Integrated approach synonymous with trans-disciplinary understanding is crucial to encourage Integrated and critical thinking, to build linkages between diverse academic inputs and practices. Students will utilize varied contradictory perspectives to understand current problems and positions contextually and seek Integrated solutions to build a Happy Society, intrinsic to the stated Vision. Various professional ability and skill enhancement subjects are ensured to build a syllabus that allows all students to chalk out their own roadmap as per interests and emerge as unique and responsible architects with a keen sensibility for societal issues. Innovation is valued as a catalyst to growth. Through innovative approaches to pedagogy, the transaction of curriculum will be based on the principle of joyful learning thereby achieving better learning outcomes. The aim of the program is to develop each budding architect's metacognitive skills, manage learning strategies and direct the learning processes towards meaningful design solutions. Master in Urban and Regional Planning, abbreviated as MURP, is a two year full time Master's degree programme in planning aimed to equip the students with adequate skills required to comprehend urban and regional issues and to analyse physical, socio-economic, cultural, political and ecological dimensions of the human settlements. The course is designed to provide necessary exposure to various planning processes, emerging trends and other related advanced technical know-how. It intends to contribute towards the creation of professionals in the field of planning and hence to cater to the specific needs of industry and academics. During the course, the students will be provided with ample opportunities to interact with subject experts and relevant organisations on many projects. The course enables students to gain real time experience through their involvement in on-going or live projects. Guidelines given by AICTE and ITPI are followed to form the broader framework of the syllabus and the distribution of courses ensures holistic development of students. Components of Humanities, Skill enhancement courses, a plethora of professional and open electives to promote trans-disciplinary learning and various professional are included abilities to constitute relevant syllabus content. The syllabus for MURP not only offers opportunities and avenues to learn core subjects but also explores additional avenues

	of learning beyond the core subjects for holistic development of an individual. Master of Architecture (Urban Design) program intends to engage in multi-disciplinary approach and become more effective in forming the vision for a holistic development. The program focuses especially on the Indian scenario and the transformation that Indian urban areas are undergoing. Urban Design is the Emerging Design field in Indian Context with direct application to projects like New Town / Area Development, Water front developments, Open & Public space development, Urban Renewal projects, Various projects in Smart City development, Urban Conservation, urban mobility and a wide range of public projects. The Urban Design course will address two major issues of relevance and adaptability in its course structure to ensure effectiveness and absorption of graduates into decision making positions in practice and academics. The graduates will be trained to contribute to the development in India at the same time envisaging to address key global issues such as climate change, environmental sustainability, social cities, digital design and its application that are the need of the hour and have a wide spread application. The course also wants to become the epicentre for documentation and research on Urban Design to generate and augment vital data, especially of the rich Indian urban history and cities of India and the learning from the same is intended to be applied to real life situations and further research. Guidelines given by Council of Architecture and AICTE have been followed to form the broader framework of the syllabus. Dear Sir / Madam,

Greetings from Sarvajani University.

We formed various committees for the smooth establishment of Sarvajani University in March 2021.

Sarvajani University appreciates your hard work and leadership to create an environment of Academic Excellence and put up an efficient administrative systems at the University throughout the year.

As we are moving towards new academic year, we have re-structured the committees and we would expect the efforts, advice, suggestions and guidance to achieve the aims and objectives of Sarvajani University.

We have convened a meeting of all conveners tomorrow at 3:00 pm at Sarvajani University Office. Please make it convenient to attend the meeting.

Thanking you always,

Registrar

No: FRC/FEE/2017-18 to 2019-20/94

Date 21/05/2018

THROUGH E-MAIL

FEE ORDER

ORDER made in the matters of Babaria Institute of Technology, Varnama, Vadodara (11144) and 61 other institutions for determination of fee structure for the Academic Years 2017-2018, 2018-2019 & 2019-2020:

1. In pursuance of the powers conferred upon it, the Fee Regulatory Committee ("the Committee" for short) which is constituted under the provisions of **The Gujarat Professional Technical Educational Colleges or Institutions (Regulation of Admission and Fixation of Fees) Act, 2007 ("the Act" for short)** intimated all the institutions which are subject to the jurisdiction of the Committee, to submit their proposals for determining the fee structure for the block period of 3 years of 2017-18, 2018-19 and 2019-20 together with necessary data. The proposals were invited through online portal in prescribed format vide e-mail and SMS communication dated 07/03/2017. In response to that the institutions as listed in Appendix-I to this order submitted their proposals together with necessary information in prescribed format.
2. Since the determination of fee structure of institutions numbering over 600 was likely to consume time, the Committee with a view to facilitate the process of admission of students to such institutions, issued Circular No.FRC/FeeBlock_2017-20/July-17/141 dated 5th July, 2017 and also other circulars subsequently directing the institutions to collect provisional fee for the year 2017-18 as prescribed by the Committee. The provisional fee of each institution was displayed on the website of the Committee. It was made very clear that it was only by way of an interim measure subject to the final determination of the fee structures of these institutions. It was also

110

made clear that if the final fee fixed by the Committee was more than the provisional fee, the institution would be entitled to collect the balance amount from the students and if the final fee was less than the provisional fee, then the institution would be required to refund the difference to the students.

3. The Committee, as a part of exercise of determining the Fee Structure and in consonance with the provisions of the Act resolved to carry out inspection of the infrastructure provided by the Institution to assess the quality thereof in accordance with the norms and qualitative parameters set by the Committee and for that purpose teams of experts were formed. The Committee duly authorized those teams of experts to visit each institution where inspection was required to be carried out and submit their reports to the Committee. The Committee named this program as **"KNOW YOUR COLLEGE" ("KYC" for short)**. The teams carried detailed inspection, prepared reports thereof and also furnished copies of the reports to the management of the concerned Institution. The teams submitted their reports to the Committee online and also hard copy thereof and the Committee in turn evaluated them and considered qualitative parameters as reflected from the report of the experts. Based on that it gave an appropriate merit percentage to the institution. This exercise has enabled the Committee to properly comply with the provisions of Section-11 of the Act. After due deliberation the Committee also decided to grant premium to the institution securing 60% and above and accordingly granted premium to such institutions subject to the recast of the cost per student for the year 2016-17.
4. The Committee, including its designated Chartered Accountant Member and also a team of duly qualified Chartered Accountants commenced the detailed scrutiny of each proposal. It carried out necessary exercise by following the standard accountancy practice as also its consistent policy and methodology adopted which are evolved essentially keeping in view the provision of the Act to determine the fee structure, while doing so the Committee also kept in view the

document published on the Committee's website on 04/04/2017 named as "Approach towards determination of the fee for the period three years from 2017-18". Over and above this, as part of this exercise the Committee worked out the cost per student for the year 2016-17, on the basis of the financial data re-cast by team of duly qualified Chartered Accountants.

After due scrutiny as stated above of the proposal submitted by the institution, the Committee arrived at the following findings:-

The first and foremost reason for rejection of the fee structure proposed by the institution is that the cost worked out by the institution per student is based on the actual number of the students admitted to the concerned program. This is not permissible because normally the cost should be distributed on the normative intake of the particular program. However, the Committee has not overlooked the present scenario that the actual admission of the students is quite less than the normative intake. The Committee has therefore evolved a via media to see that no injustice is done to the institution and therefore, it has worked out the average of normative intake and actual admission of the students for the particular program and has determined the cost per student accordingly. The result is that even after this exercise, the cost worked out by the Committee per student is less than the cost worked out by the institution per student. Secondly, the committee has taken into account only the expenditures which are directly related to imparting education, whereas the institutions have submitted the audited accounts which also include the expenditures which are not directly related to imparting the education. This is not permissible. Thirdly, the Committee has also found that the proposals of the institutions were based on the projected expenditure. However, on the scrutiny of the data furnished by the institution in support of its proposal it transpired that though in the past projections were granted, the same were not fulfilled and the surplus was generated in the subsequent years.

Handwritten signature in blue ink.

Therefore the Committee had a reason to draw adverse inference against the institution and consequently it disallowed the projections. Fourthly, the KYC Score of some of the institutions was not up to the mark. Lastly, the committee has also taken into consideration the element of general inflation for successive years and has given appropriate effect to it.

5. This exercise was carried out for all the institutions as listed in Appendix-I to this order. Accordingly, the Committee arrived at a tentative fee figure for such institutions which was to be finalized subject to the outcome of the personal hearing. The Committee by its letter dated 11/10/2017 intimated these institutions that their tentative fee can be viewed through their login ID or login ID of their sponsoring body on the Fee Committee portal. The Committee also informed the institutions by the said letter that their sponsoring bodies may opt for personal hearing if they were not satisfied with the tentative fee figure arrived at by the Committee. It was also clarified in it that if nothing was heard from any sponsoring body, it would be presumed that the tentative figure of fee was acceptable to it and the same shall be considered as its final fee structure.
6. Sponsoring bodies of 62 institutions as listed in Appendix-1 to this order had opted for personal hearing and accordingly the team authorized by each sponsoring body comprising Head of the institution, Chartered Accountant and the concerned member was heard by the Committee. The team represented in detail its stand regarding the tentative fee arrived at by the Committee. Its main contention was that the tentative fee was inadequate and it required upward revision. It brought to the notice of the Committee relevant documents from the record submitted at the time of hearing in support of its submissions. After careful consideration of the submissions as well as the documents referred to by the team, the Committee found that there was considerable substance in the submissions of the team and therefore, the Committee, by general

116

consensus, decided to relook into the issue and grant appropriate increase in the tentative fee.

7. In view of the above, the Committee has now determined the fee structures of the institutions listed in Appendix-I to this order for the block period of 3 years commencing from 2017-18, 2018-19 and 2019-20 which is subject to the following conditions:

(a) The fee structure determined by the Committee shall be binding for a period of three years. The fee so determined shall be applicable to the students admitted in that academic year and shall not be revised till the completion of his/her professional course in the same institution.

(b) As per section 11 (2) of the Act, the fees indicated in Appendix-I to this order, include all types and kinds of fees such as Tuition fees, Library fees, Laboratory fees, Computer Fees, Caution Money, Gymkhana, Internet, Sports and Recreation and Self/Personality Centers fee, University Affiliation fees (if any) and the like. As such the institution shall not collect any other fee from the students except the fees as mentioned in Appendix-I to this order.

8 The institution shall also comply with following additional conditions:

a. If the final fee fixed by the committee is more than the provisional fee then the institution is entitled to collect the balance amount from the students and if the final fee is less than the provisional fee the institution shall refund the difference to the students.

b. The institution shall not take fees for the full course at the time of admission. The fees shall be collected per semester or term of 6 (Six) months as the case may be.

c. The institution shall not ask for any bank guarantee or security of any kind from students or their parents.

116

- d. The institution shall not compel any student to avail any facility including hostel and transport as a part of the condition for admission or its continuity till the end of the full tenure of the course.
- e. The institution shall notify the Fees on its Notice Board and also display copy of this order on its Mandatory Disclosure Link on its official website.
- f. Additional fees charged from the students admitted under the NRI Quota shall be credited to separate bank account and the same will be used only for the benefits of the students belonging to economically weaker class and/or for increasing infrastructure facilities. The institution shall also furnish all the information pertaining to the utilization of excess fees from the NRI category students in the information memorandum which may be submitted along with the fee proposal for next block of 3 years.

(In pursuance of power conferred upon Officer on special duty by the Fee Regulatory Committee (Technical) vide its resolution dated 10th February 2022 the following circular is issued.)

CIRCULAR:

For Newly started Colleges/Institutions and the New program started in existing Institution in the academic year 2020-21, the Committee determines the fee structure for the year **2020-21** only as per the **Appendix-I** attached herewith.

The fee structure determined by the committee is applicable to the student who is admitted in the academic year **2020-21** and it shall continue to apply till completion of his or her course in the said institution. However, the fee structure is subject to any direction, circular, order or notification that may be issued by the Government of Gujarat, Government of India, any Statutory or Regulatory Body or any Court of Law with regard to fees to be charged by such institutions/colleges for any other period that may be directed by it.

As per section 11 (2) of the Act, the fee structure indicated in **Appendix-I** to this Circular includes all types and kinds of fees such as Tuition fees, Library fees, Laboratory fees, Computer Fees, Caution Money, Gymkhana, Internet, Sports and Recreation and Self/Personality Centers fee, University Affiliation fees (if any) and the like. As such the institution shall not collect any other fee from the students except the fees as mentioned in **Appendix-I** to this order. It is also not allowed to collect the fee at a time amounting to more than one term fee from the students in an academic year.

As you know the country is severely affected by COVID-19 pandemic since March-2020 and currently it is facing the third wave of the pandemic that has badly hit the economy of the country. That, in turn, has adversely affected income of parents of the students. The Committee, therefore, purely on humanitarian ground, appeals to the institutions listed in Appendix-I to maintain the status quo as regards to the fee chargeable from the student for the year 2021-22 and 2022-23 at par with fee structure determined for the year 2020-21.
